

ADITYA RAGHAV

Product Designer · UI/UX Designer · Frontend Developer

Noida, India | +91 97566 74995 | aryaraghav8@gmail.com | [linkedin.com/in/aryaraghav8](https://www.linkedin.com/in/aryaraghav8) | [portfolio](#)

PROFESSIONAL SUMMARY

Product Designer with 2+ years of experience crafting fintech, healthcare, and legal-tech products. Specialises in transforming complex systems — payment journeys, medical interfaces, legal workflows — into simple, intuitive experiences. Combines deep UX thinking with frontend engineering to increase task success rates by 20% and reduce load times by 30%. Comfortable working end-to-end from early wireframes to production-ready interfaces, in close collaboration with developers and product teams.

EXPERIENCE

Product Designer [AAFM India](#) · New Delhi | Oct 2025 – Present

- Crafted 20+ screens across a fintech education platform — covering course discovery, payments, and student onboarding journeys.
- Restructured the user flow from discovery to enrolment, reducing steps by ~40% and improving conversion clarity across 3 key funnels.
- Developed 4+ landing pages for finance programmes (CWM, GIFT City), each optimised for trust signals and lead conversion.
- Established a foundational design system with 30+ reusable components, cutting design-to-development handoff time by ~25%.
- Shipped features across 6+ agile sprints in close collaboration with a cross-functional team of developers and product managers.

UI/UX Designer & Frontend Developer [Accuster Technologies Pvt Ltd](#) · Delhi | Nov 2023 to Oct 2025

- Engineered and shipped 20+ interfaces for healthcare platforms and diagnostic systems (LIMS, analyser interfaces, health apps).
- Conducted 10+ rounds of usability testing and iterative improvements, increasing task success rates by ~20%.
- Improved frontend performance through code optimisation and asset reduction, lowering load times by ~30%.
- Built 15+ reusable React components adopted across 3 products, improving development scalability and consistency.
- Reduced QA-reported UI bugs by ~35% through tighter design specs and early collaboration with the engineering team.

SELECTED WORKS

Fintech Ecosystem (AAFM Ecosystem) End-to-end design across 20+ screens — course discovery, onboarding, and payment flows. Restructured 3 key user funnels, improving navigation clarity and conversion rate.

NexgenTransfers (Legal-Tech Platform) Redesigned onboarding and will-creation flows, reducing a complex legal process into a guided 5-step experience — cutting estimated user drop-off by ~30%.

Health-Tech Product Suite Designed 10+ interfaces for diagnostic tools and lab systems, focused on error reduction in high-stakes clinical environments — contributing to a ~20% improvement in task success rates.

SKILLS

Design	Figma · Wireframing · Prototyping · User Flows · Design Systems · Usability Testing
Frontend	React · JavaScript · HTML · CSS
Other	Python · AI Tools (ChatGPT, Claude) · Agile

EDUCATION

Bachelor of Computer Applications (BCA)	·	Rotary Institute of Management and Technology		08/2018 – 06/2021
Senior Secondary (XII)	·	RS Inter College		03/2014 – 04/2016
Secondary (X)	·	OPG Memorial Senior Secondary School		03/2012 – 04/2014

STRENGTHS

- Thinks in systems, not just screens — designs holistic product experiences.
- Bridges the gap between design and development with hands-on frontend expertise.
- Makes complex workflows simple, usable, and performant for real people.
- Cares deeply about performance, accessibility, and measurable user impact.
